4 We group similar merchant category codes into Purchase Categories that are used to calculate the stated rewards. We make every effort to include all relevant merchant category codes in the listed Purchase Categories. However, even though a merchant or the items that it sells may appear to fit within a Purchase Category, the merchant may not provide us with the merchant code that will fall within that Purchase Category. Because of this, we cannot guarantee that a purchase will qualify for more than the standard 1% (one percent) cash back as any purchase where a merchant uses a category code outside of the eligible Purchase Category does not qualify for additional rewards cash back.

If you do not meet our criteria for the World card, you may be considered for the Mastercard Platinum Rewards card.
